Approved President’s Plan of Work

Dan Brauch
August 2021 – August 2022

Preamble

The WDAFS president’s plan of work should be consistent with the AFS and WDAFS mission and vision (provided below).

**AFS MISSION:** The mission of the American Fisheries Society is to improve the conservation and sustainability of fishery resources and aquatic ecosystems by advancing fisheries and aquatic science and promoting the development of fisheries professionals.

**AFS VISION:** To address our mission, AFS needs to advance fisheries knowledge and strive to be the home society for all fisheries disciplines. In that pursuit, AFS seeks to be recognized as the pre-eminent organization providing fisheries information to decision makers in all arenas. While fulfilling our vision, we will recruit and develop new fisheries professionals by offering learning and training opportunities crucial to maintaining a well-trained profession, support programs and efforts to increase diversity and inclusion, and enhance the value of AFS professional certification.

**WDAFS MISSION:**
The mission of the Western Division of the American Fisheries Society is to: 1) improve the conservation and sustainability of unique fishery resources and aquatic ecosystems in western North America by advancing fisheries and aquatic science and promoting the development of fisheries professionals, and 2) serving as an effective bridge between the Society and Chapters within the Western Division, promoting communication among and support of the Chapters and membership, and being the American Fisheries Society's representative to the public in western North America.

**WDAFS VISION:**
The Western Division of the American Fisheries Society seeks to be recognized as the pre-eminent organization providing fisheries information to decision makers in all arenas of western North America. While fulfilling our vision, we will recruit and develop new fisheries professionals by offering learning and training opportunities crucial to maintaining a well-trained profession, support programs and efforts to increase diversity and inclusion, and enhance the value of American Fisheries Society professional certification.

2. Financial Sustainability
   a. Work with Financial Sustainability Committee to use WDAFS Financial Sustainability Plan and investment policy to insure long term funding for WDAFS.
   b. Develop annual budget that is adequately funded to support the WDAFS mission while insuring long term viability of the Division.
   c. Work to fund priority projects (D&I Initiatives, Professional Growth Opportunities) by prioritizing in budget.

3. Support professional growth of WDAFS members
   a. Take advantage of virtual tools that membership has grown more accustomed to during 2020 and 2021 and develop future programs that can provide improved opportunities for professional growth (workshops associated or not-associated with Annual Meeting, hybrid Annual Meeting components, etc), especially for members of chapters who may find travel more difficult.
   b. Continue to support travel for in-person attendance of AFS/WDAFS Annual Meeting for both members and officers while using travel grants to encourage travel by diverse membership.
